TRANSPORTATION

In the age of intermodality, Artelia assists in managing all modes of transportation.

As leader or member of multidisciplinary teams, Artelia **studies** demand, **defines** master plans, **models** traffic, **proposes** mobility and transportation plans, **eco-designs** layouts, infrastructure and associated buildings, **sizes** intelligent transportation systems, **coordinates** consultation and environmental integration aspects, **supervises** works and procurement procedures through to commissioning, and **assists** with operations, traffic regulation and user information.

URBAN TRANSPORTATION

- Metros
- Bus Rapid Transit (BRT) systems
- Tramways, tram-trains
- Urban road networks
- Cable transport systems
- Cycle paths
- Stations, interchanges
- Utility network diversions

RAIL AND HIGH-SPEED TRAINS

- Track and layout
- Infrastructure, bridges and tunnels
- Rolling stock, power supply
- Signalling and information systems
- Stations
- Logistics hubs, depots and workshops
- Protection against floods and natural risks

CLIENTS AND PARTNERS

- State authorities
- Local authorities
- Transportation authorities
- Private developers
- Turnkey and EPC contractors
- Operators
- Construction firms
- Industries
