

Digital transformation responds to strategy issues of your company. Now acknowledged to be essential, it makes far more efficient in your organisational management and thus enables you to develop and deliver new services for your clients, and to meet the expectations of your business.

A wide range of digital services to support your digital transformation

Artelia Digital Solutions adopts a pragmatic, step-by-step approach to corporate digital transformation, aimed at enhancing staff efficiency and optimising customer services. Its teams of experts design solutions geared to the specific features of each project.

We are a digital service provider with a proven 30-year track record of project delivery and in-depth knowledge of cutting-edge information technologies. Our clients range from industrial groups to service-sector companies and local authorities.

Audits, assessments and expert appraisals

Audits, assessments and scoping studies to define the issues, objectives and target vision of the project and its implementation method.

Consultancy and assistance to Engineers and Owners

Assistance to Project Engineers and Owners, analysis of needs and business or technical specifications, deployment and start-up assistance, coordination of IT projects and business issues.

Fixed-price hardware and software integration services

Formalisation of organisations, business processes and specifications for applications or infrastructure; integration and deployment of the selected solution.

Cloud computing: hosted infrastructure, services and applications

Assistance with the operation of IT infrastructure and applications: outsourcing, facility management, and SaaS and cloud computing applications.

Facility management contracts

Total or partial management of information systems through long-term contracts with a predefined service level.

Technical assistance

One-off external technical assistance assignments.

In-service support

Customised ISS services to keep applications and infrastructure operational round the clock, seven days a week.

Dedicated software developments

Design and development of dedicated software solutions tailored to the client's needs and specifications.

Artelia Digital Solutions

designs customised software solutions and **specialist packages** for business and industrial applications.
