Designing solutions for a positive life

ARTELIA Hospitality

Providing sustainable hospitality solutions

ARTELIA Hospitality was created to keep pace with the changes taking place in the global hospitality sector with regard to brand positioning, modernisation and technical innovations.

The ARTELIA Hospitality center of excellence draws on the Artelia Group's international hospitality expertise. It proposes a full range of services including multidisciplinary engineering, strategic consultancy and project management.

Its teams offer clients an intelligent and comprehensive understanding of global or local norms and models. They are committed to delivering a high standard of service, to innovate and to adopt a sustainable approach to create value for both the owner and end user.

ARTELIA Hospitality is focused on providing energy efficient, sustainable, low carbon design and construction services. Improving the energy efficiency and management of existing establishments and engineering sustainable new builds.

SERVICES PROVIDED
